Re: Additional Investment in Bayou Accredited Fund, LLC (AC 50)

This letter is to acknowledge the additional investment in the **Bayou Accredited Fund, L.L.C.** for the amount of **\$ 900,000.00**. Your additional capital contribution will be reflected on **October 01, 2004**. Attached is a copy of our credit advice confirming receipt of the funds.

I am aware that many of our investors found Bayou through a third party or firm who may include Bayou as part of their own strategy for their clients. I wish to remind you that the Manager can, and does, pay commissions to various third party marketers or firms as to some of the investments in the Fund by their clients. These costs and associated expenses are the sole responsibility of the Manager and are not charged to any investor. Even if you were so introduced, we feel that your interests will be best served by communicating directly with Bayou and we encourage you to do so.

If you have any questions please call Investor Relations at 203-708-6713/6720.

We thank you for your confidence in Bayou and hope to justify your faith in us.

Sincerely,

Samuel Israel III

July 27, 2005

From: Sam Israel III General Members

It is with great regret, but with an overriding sense of pride and accomplishment in a job done to the best of our abilities, that I announce the closing of the Bayou Family of Funds at the end of the July 2005. Upon completion of the final audit, all investors will receive a 100% payout on their investments. The current investors who have sent in redemption notices recently will be subject to the final audit and those redemptions will be part of the final payments. We will send updates to the investors while the audit is in progress indicating an anticipated date of final payments.

Over the nine years of Bayou's existence we have tried to always perform to the best of our abilities while managing the risk profile and to provide returns of which everyone can be proud. With the exception of what I would call "growing pains" inherent to the learning curve of business, I feel we have done an admirable job in the stewardship of the funds with which we have been entrusted and hope that you agree.

I have always been of the opinion that in order to be successful in our business one must be able to devote the majority of one's time, effort and focus on the business. At this point in time, however, I want to devote the majority of my time to my children and to my personal life. As you probably know, I am currently in the process of getting divorced. As most of you will also know, major changes like this often result in periods of self reflection, involving the examination of your life, your goals and your priorities. What has become very clear to me during this time is that the years when your children are growing from young dependent children into independent adults are extremely fleeting and precious. The opportunity to share in this miracle is not one that I plan to miss. I am in the enviable position of being able to arrange my life to make the most of this opportunity. Therefore, it is my intention to spend some time relaxing and enjoying my children and focusing on rebuilding my personal life. I will continue to trade my own and Dan's personal funds; keeping my toe in the business which I love too much to give up entirely. Additionally, when the right time comes I may well invite others to join me in this. For the immediate future, however, I hope that you will understand and respect my decision and know that it was not an easy decision to make, but that I do believe it to be the right one.

Finally, I wish to thank everyone for your support of Bayou over these nine years. We, as a team, have done our best for you, our investors, and we have certainly enjoyed working with and getting to know each of you. I realize that many of you will wish to contact me personally; however, I am asking you to please respect my desire to focus on my family and direct all communications through Bayou via [info@bayougroup.com](mailto:info@bayougroup.com) or the Investor Relations department. These communications will be forwarded to me and I will try to respond in a timely fashion.

Thank you all again. It has been my great pleasure to be associated with you all.

Sincerely,

As promised, I would like to update you on the audit/closure process. First, all investors should refer to the following Articles in the Operating Agreement, which has been attached for your convenience. These sections detail how liquidation of the funds shall proceed: Page 21, Article 8 (e), Page 30, Article 10.5 and Pages 33-35, Article 13. Please note that although the page numbers may differ in each fund, the terms in the one attached are the same.

There have been many communications from investors who do not understand why the process should take as long as the operating agreement indicates. The reason for the time frames specified in the agreement is to allow for the fact that, although three to four months may seem an unfair or unreasonably long time frame at first glance, the auditors must review the past 6 months of trades. Although we don't anticipate any major adjustments, the total could be impacted should any booking errors have occurred.

Furthermore, just as all Members are required to follow the terms of the Operating Agreement, so too is the Manager. We will do our best to expedite the process as much as possible. We are not insensitive to our investor's money management requirements. The audit has already begun and confirmation letters regarding activities for the period January through the end of July will be going out next week. Investors can aid in expediting the process by promptly completing and returning these letters to the auditor as soon as they are received. It is our intention to monitor the progress of the audit closely. Upon receipt of all confirmation letters and as soon as it appears to be certain that there are no substantial adjustments forthcoming, it is our intent that a significant portion of capital balances will be distributed. It is not inconceivable that with everyone's cooperation, partial distributions could begin by mid-August; however, we cannot guarantee that.

We expect that the final results will not be materially different from the information furnished to you in your June statement. Further updates will be provided as the audit progresses. We would appreciate your patience and cooperation during this process.

Sincerely,

Bayou Management LLC

This letter is to update you on the fund closing process. The "audit letters" for the domestic funds have now gone out. Included in these letters are July NAV statements. Please follow the instructions on the letter and return as soon as possible in order to expedite the process. Should you have any questions or find any discrepancies between our records and yours please note them on the audit confirm letter itself. Either someone from Bayou or the auditor will get back you with regard to any issues.

We are trying to make arrangements, with the auditor's approval, to send out the 90% balance by next week. We are aiming for Wednesday. We will be able to finalize the date toward the end of this week. The remaining balance will be distributed upon receipt and reconciliation of audit letters from all investors. To date, there have been no indications that any adjustments will be proposed by the auditor and we don't anticipate any.

I suspect that the final 10% balance will be paid by the close of August, which is substantially ahead of the time allowed under the operating agreement.

Distribution will be made via check. The check will be accompanied by a letter and photocopy of the check that must be signed and returned to Bayou acknowledging receipt and agreement with the account balance reflected. This procedure will be applied to both the 90% refund and the 10% balance payments.

For this reason, it is important that, should you wish the checks to be mailed to any address other than the one your NAV statement is currently mailed to, you please provide it to us at this time. All communication should be addressed to Bayou at 40 Signal Road, Stamford, Connecticut 06902 or [info@bayougroup.com](mailto:info@bayougroup.com). The offices will be open through the end of October.

Your cooperation in responding to our information request will expedite the process. I will send out another e-mail as soon as possible with further updates.

Sincerely,

Sam Israel

Hennessey Opportunistic Index	-8.32%	1.65%	7.92%			

The following information is for the domestic fund; the offshore fund is managed in a similar fashion, but performance may vary.

MARKET VIEW	<ul style="list-style-type: none"> <li>The manager believes the month of August was uneventful as most of Wall Street was away on vacation. On the economic side, he feels recent economic indicators have been mixed-to-positive, which has pushed equities higher on the hopes of a near-term recovery.</li> </ul>
PORTFOLIO STRUCTURE	<ul style="list-style-type: none"> <li>Due to the high velocity trading nature of the fund, no significant position or sector exposure is kept over night.</li> <li>Average size of positions are 1-2%, the largest being 5%.</li> <li>The portfolio includes long-term positions that are expected to perform well in periods of market weakness. In particular, Pan America Silver (PAAS), a silver mining company, which contributed to gains in July, added to gains during the last week of August.</li> <li>The portfolio remains hedged with ETFs and equity short positions to minimize downside risk.</li> </ul>
NUMBER OF POSITIONS	<ul style="list-style-type: none"> <li>During August, on average, the manager held 15-25 positions daily.</li> </ul>
PERFORMANCE	<ul style="list-style-type: none"> <li>For the month of August, the fund declined -0.65% net, bringing the year-to-date performance to +8.86% net.</li> <li>The near flat performance, the manager believes, was achieved in a difficult market that was characterized by lackluster participation, which caused short-term swings in stocks. To hedge this risk, he relied on his quantitative indicators and avoided taking large bets.</li> <li>Gains during the month were a result of smaller bets on individual equities and capturing short term moves in directional plays.</li> <li>The manager continued to hedge the portfolio with the use of ETFs and straight equity shorts with in-house analytics showing no clear direction in the market. On the other hand, the manager did press very liquid positions that could be traded in and out of easily.</li> </ul>
FUTURE PORTFOLIO EXPECTATIONS	<ul style="list-style-type: none"> <li>During August, due to weak trading volume, the manager focused some of his efforts on finding individual long-term names that will benefit in an up market. He expects to continue putting on shorts during market advances until he gains more conviction on the market's behavior.</li> </ul>
MARKET CONCERNS	<ul style="list-style-type: none"> <li>The manager believes the market will experience a self-off based on proprietary systems showing it at the peak of its trading range.</li> </ul>
ORGANIZATIONAL CHANGES	<ul style="list-style-type: none"> <li>As a result, he has been maintaining a lower net exposure intra-day.</li> <li><u>August 2003</u>: No changes to the organization.</li> <li><u>June 2003</u>: The firm conducted its first investor conference call. Dear Client of Hennessee:

In light of the New York State Attorney General's investigation into mutual fund market timing, we have received a few client inquiries as to hedge funds' involvement in the matter. As you may be aware, several mutual funds are facing investigations from securities regulators for allowing a number of hedge funds to engage in "late trades" of mutual fund shares. Furthermore, a small group of hedge funds are under investigation for engaging in the practice.

**We have confirmed that none of the hedge funds in which Hennessee has advised you to invest are engaged in mutual fund market timing.**

Should you have any questions, feel free to call to discuss this matter in more detail.

Sincerely,
